SAIKAT DEY

ENTRY-LEVEL FRONT-END DEVELOPER

Phone: +91 85975 65181 | Email: dey.saikat0904@outlook.com | Location: West Bengal, India

PROFESSIONAL SUMMARY

Entry-level front-end developer and BCA graduate with foundational knowledge of HTML5, CSS3, JavaScript (ES6), Bootstrap, responsive web design, and MySQL. Interested in building clean, user-friendly websites, creating responsive landing pages, and troubleshooting layout or functionality issues. Currently gaining practical exposure through a Web Development Internship at Unified Mentor. Eager to learn, contribute to a team, and grow through real-world projects.

TECHNICAL SKILLS

Front-End	HTML5, CSS3, JavaScript (ES6), Bootstrap, Responsive Web Design, page layout, navigation, and basic interactive UI elements
Database	MySQL, basic SQL queries, CRUD operations
Design & Tools	Figma (basic), Canva (basic), browser developer tools, code testing and debugging
AI-Assisted Workflow	Use AI tools such as ChatGPT and Claude to brainstorm landing-page ideas, draft page structure, and troubleshoot code; review and test generated output before use

PROJECTS

1. Personal Portfolio Website

- Created a portfolio concept to present profile information, technical skills, education, and project work in one place.
- Used HTML, CSS, and JavaScript to structure content and support interactive elements.
- Focused on responsive layout, readable typography, navigation, and a professional presentation across screen sizes.

2. Foodie-Hunt — Food Discovery & Ordering UI

- Food-platform concept inspired by Zomato and Swiggy, designed to display restaurant and food options.
- Includes planned sign-up and sign-in screens and a user-friendly browsing flow for food options.
- Focused on organized content, responsive page sections, and clear navigation. Describe only features that are implemented in your actual demo.

INTERNSHIP EXPERIENCE

Web Development Intern — Unified Mentor (Present)

- Currently gaining practical experience in web development through internship activities and project-based practice.
- Currently learning React.js and Node.js to improve my web development skills.
- Writing, testing, and improving code while learning professional development practices.
